In response to the requirement for restriction, Applicants elect the invention designated by the Examiner as Group I. This election is made with traverse, on the ground that some of the compounds in Groups II and III may be regarded as adjacent homologues of some compounds in Group I. Therefore, examination of these Groups together would not be unduly burdensome.

In response to the requirement far as election of species, Applicants elect the compound 1-(6-bromo-5-methoxy-3-pyridyl)-homopiperazine. Claims 1-3, 5 and 12-16 read on the elected species.
